ONE PARTNER. FOUR BRANDS. UNLIMITED POSSIBILITIES.

We're in the business of making the world move. Textron GSE is a leading global provider of ground support equipment and service under the TUG™, Douglas™, Premier™, and Safeaero™ brands. These distinguished brands deliver a legacy spanning more than 160 years, serving the ground support industry, focused on developing, innovating and delivering solutions that exceed industry-high standards and maximize the operations of our customers.

Textron GSE offers an extensive line of conventional and towbarless pushbacks, baggage and cargo tractors, belt loaders, single and dual operation deicers, and air starts. These products are built in world-class manufacturing facilities in Cartersville, Georgia, to Trelleborg, Sweden.

Textron GSE is part of Textron Specialized Vehicles, a division of Textron Inc., a global multi-industry Fortune 500 company, recognized for its powerful brands, world-class enterprise processes and talented people. The Textron portfolio of brands includes Bell, Cessna, Kautex, Textron Systems, Arctic Cat, and E-Z-GO to name a few.

Textron GSE remains steadfast in its commitment to push forward, working together to deliver superior product solutions, unrivaled customer support and service, aftermarket OEM parts and an unmatched customer experience.

We are Textron GSE.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. This WARNING applies to all items that can be ordered on this page.

Established in 1972 in Marietta, Georgia; TUG entered the ground support industry with the introduction of its MA baggage tractor. Since then, TUG has evolved into an industry recognized brand, synonymous for delivering vehicles built tough to perform and trusted to support the highly efficient operations of ground support crews worldwide. TUG offers a diverse range of durable, reliable, equipment available in a variety of powertrains, that encompasses a full line of baggage and cargo tractors, conventional pushbacks, belt loaders and aircraft support equipment designed for applications throughout the globe.

DOUGLAS > TBL-280

DOUGLAS > TBL-400

> DOUGLAS™

Douglas™ was established in 1947 as a company that made a wide variety of commercial vehicles for specialized performance. The brand evolved in the 1960’s with the growth of commercial air travel, and the introduction of the towbarless aircraft pushback tractor. Douglas focused on towing tractors for the aviation industry, and by 1997 became the first company to sell towbarless tractors into China and the Middle East, gaining worldwide recognition and capturing significant market share. Today, Douglas maintains an excellent brand reputation by offering its customers high quality, innovative and reliable towbarless and conventional aircraft tractors.

> PREMIER™

Founded in a small factory in Marinette, Wisconsin; Premier started in 1991 as a company focused on service and support of existing ground handling equipment, specifically deicers. A year later in 1992, Premier introduced the Hot Shot series of deicers. Since then, Premier has continued to build reliable deicers for a variety of aircraft with models featuring a working height up to 50 ft and at-temperature fluid deployment in less than 90 seconds. Premier has also focused on efficiency, safety and ease of operation with innovative solutions such as Express Start™ and Guardian™ technology.

> SAFEAERO™

Started in 1997 Safeaero™ is known for its innovation and deicing leadership within the aviation industry. Based in Trelleborg, Sweden, Safeaero is the only company that can offer a one-man deicer. The unique productivity features of Safeaero products stem from the Safeaero 220 and its ability for a single operator to maneuver, drive and spray aircraft. Couple that with high tech, touch screen controls, state-of-the-art deicing technology and enhanced safety the Safeaero brand is known to deliver superior performance, innovation and unmatched productivity.

TEXTRON GSE SERVICE CENTERS

Located across the United States and around the world, Textron GSE’s network of airport shops and experienced technicians offer quick response around the clock, and superior technical expertise. Whether providing preventative maintenance to GSE vehicles, troubleshooting or supplying the right parts at the right price, we offer the services, structure, and flexibility required to keep things moving.

The Textron GSE team has decades of product knowledge and are uniquely qualified to ensure that your ramp operations run on time and efficiently and is proud to offer:

- **Traveling technicians with global reach**
- **Online customer portal for parts ordering, warranty submission, service bulletins and resource materials**
- **Service Programs**
- **Bulk Ordering**
